

Behavioral Standards

Pre-employment behavioral standards for the selection and testing of peace officer candidates have been established. While taking into account youthful indiscretion and experimentation, these standards are designed to insure that peace officer personnel have demonstrated a history of sound judgment, maturity, and honesty, as well as a respect for and adherence to the laws of the State of California and the Law Enforcement Code of Ethics. Positions of public trust require people who have demonstrated honesty, sound judgment, personal discipline, and responsibility.
