POSITION DESCRIPTION

TYPICAL TASKS
Positions at this level are responsible for functioning as nonsupervisory technical specialists in the most difficult, complex, and/or sensitive programs; and making recommendations in policy development in their areas of expertise. Positions are allocated to this class where the level of expertise required is definably greater than at the journey level. Incumbents serve as highly skilled technical program education consultants or as recognized authorities in areas of extreme sensitivity, and/or complexity. Incumbents have statewide responsibility for the health education and related components of a major statewide project or program and may have coordinating or lead responsibility for health education and other professional-technical health staff. The policy and/or program development responsibility at this level may have significant impact on other departmental health programs or on local, State, or Federal agencies. The work performed at this level has the potential for resulting in establishment of new programs or major modification of existing programs. Under general direction, incumbents provide the most complex consultation; develop, plan, organize, coordinate, implement, and evaluate the health education and related components of major statewide
projects or programs; evaluate and ensure statewide program consistency; provide professional and administrative guidance to program/project staff in a lead capacity; propose and develop programs, legislation, regulations, policy, and procedures; and other related work.
