FINAL FILING DATES
Testing is considered continuous as dates can be set at any time. Applications will be reviewed to ensure the minimum requirements for participation in this exam are met. Possession of the entrance requirements does not assure a place on the eligible list. Once you have taken the examination, you may not retest for 12 months from the established list date.

Applications must be submitted by the filing dates indicated below. Applications postmarked, personally delivered, or received via interoffice mail after the final filing date, will be held for the next administration of the exam.

The filing dates are:
January 6, 2023
March 9, 2023
May 10, 2023
July 7, 2023
September 8, 2023
November 8, 2023

SALARY
$7,203 - $9,702 per month

EQUAL EMPLOYMENT OPPORTUNITY
The State of California is an equal opportunity employer to all, regardless of age, ancestry, color, disability (mental and physical), exercising the right to family care and medical leave, gender, gender expression, gender identity, genetic information, marital status, medical condition, military or veteran status, national origin, political affiliation, race, religious creed, sex (includes pregnancy, childbirth, breastfeeding and related medical conditions), and sexual orientation.
WHO CAN APPLY
Persons who meet the minimum qualifications as stated on this announcement may take this
competitive examination.

MINIMUM QUALIFICATIONS
Possession of a valid Public Health Microbiologist's certificate issued by the California State
Department of Health Services (California Department of Public Health). (Applicants who do not
possess the required certificate but who are eligible for the examination for certification will be
admitted to the examination but they must secure the certificate before they will be considered eligible
for appointment.) AND

Either One
Two years of experience performing the duties of a Public Health Microbiologist II (Virology) in the
Department of Health Services (California Department of Public Health).

Or Two
Four years of experience in microbiology in public health or comparable laboratory, including at least
two years of virologic experience, and two years of which must have involved one or a combination of
the following:

- Supervisory experience involving supervision of professional laboratory personnel.
- Independent research in medical virology or a closely related field (i.e., Bacteriology, Mycology,
  Parasitology, or Immunology).
- Teaching experience at the level of a full-time instructorship with responsibility for a course in medical
  microbiology (i.e., Bacteriology, Virology, Mycology, Parasitology, or Immunology).
- Field consultation experience in the medical laboratory discipline.

(Possession of a Doctorate in Microbiology or Public Health with emphasis in virology or allied
disciplines, e.g., microbiology, epidemiology, administration, biostatistics, may be substituted for the
two years of general experience.)

GENERAL QUALIFICATIONS
All candidates for, appointees to, and employees in the state civil service shall possess the general
qualifications of integrity, honesty, sobriety, dependability, industry, thoroughness, accuracy, good
judgment, initiative, resourcefulness, courtesy, ability to work cooperatively with others, willingness
and ability to assume the responsibilities and to conform to the conditions of work characteristic of the
employment, and a state of health consistent with the ability to perform the assigned duties of the
class.

POSITION DESCRIPTION
TYPICAL TASKS
This is the full supervisory level of the series. Under general direction, plans, organizes, and directs
the activities of a laboratory unit; assists in other administrative duties of the laboratory including
budgeting and program planning; coordinates training activities, recruitment, and placement of
personnel; gives technical and administrative consultation to other laboratories and services
programs; performs virologic examinations which involve complex, nonstandardized, innovative
procedures; develops and evaluates methods for use in other laboratories; organizes and conducts
classes or workshops sponsored by the Department or in cooperation with colleges or universities as
well as Federal, State, and local agencies; provides expert testimony on analyses conducted in the unit; and does other related work.

**HOW TO APPLY**

To apply for this examination, please complete and return the following:

**STANDARD STATE APPLICATION (FORM 678)**

**COPY OF UNOFFICIAL/OFFICIAL COLLEGE TRANSCRIPTS**

Due to COVID-19, we have limited staff working in the office. Therefore, the preferred method of application submittal at this time is via email to CDPHEExamUnit@cdph.ca.gov. Mailed and dropped off applications will still be accepted but may have delays in processing.

Applications and any additional documents must be submitted via the U.S. Postal Service or hand delivered to the Department of Public Health Human Resources Office (hours are 8:00 AM to 5:00 PM). Submit (California State Application STD 678) and any additional documents to:

By Mail:

DEPARTMENT OF PUBLIC HEALTH
Attn: Examination Services Unit
P.O. Box 997378 MS 1700-1702
Sacramento, CA 95899-7378

Drop Off:

DEPARTMENT OF PUBLIC HEALTH
Attn: Examination Services Unit
1615 Capitol Avenue
Sacramento, CA 95814

**DO NOT SUBMIT APPLICATIONS TO THE CALIFORNIA DEPARTMENT OF HUMAN RESOURCES (CalHR) THROUGH EMAIL, FAX, OR INTER-AGENCY MAIL**

**CONTACT INFORMATION**

All questions regarding this examination (including the minimum qualifications, applying for the examination, being scheduled for the examination, reasonable accommodations, the examination components, scoring, etc.) may be directed to the contact information below:

**EMAIL:** CDPHEExamUnit@cdph.ca.gov

**EXAMINATION INFORMATION**

The examination will consist of a Qualifications Assessment and is the sole component of the Public Health Microbiologist Supervisor (Virology) examination. To obtain a position on the eligible list, a minimum score of 70% must be received. The Qualifications Assessment is designed to elicit
specific information regarding each candidate’s education, training, and experience relative to the testing classification. Responses to the questionnaire will be assessed based on pre-determined rating criteria.

**The Qualifications Assessment package will be emailed to the applicant in the form of a survey. Please monitor your email account’s SPAM, Junk, Bulk, etc. Folder(s) as the examination email may be filtered depending on your specific account settings.**

The Department of Public Health reserves the right to revise the examination plan to better meet the needs of the service if the circumstances under which this examination was planned change. Such revision will be in accordance with civil service law and rules and all competitors will be notified.

**REQUIREMENTS FOR ADMITTANCE TO THE EXAMINATION**

It is your responsibility to make sure you meet the education and/or experience requirements stated on this announcement on the date you submit your application. Your signature on your application indicates that you have read, understood, and possess the basic qualifications required.

**NOTE:** Applications must include “to” and “from” dates (month/day/year), time base, job titles and/or civil service class title(s), and range (if applicable) for all work experience. College course Information must include title, number of semester or quarter units, name of institution, completion dates, and degree. Applications received without this information will be rejected. Applicants must submit a copy of either official or unofficial transcripts along with the application when using education to meet the entrance requirements for this examination.

**SCOPE OF EXAMINATION:** Ratings will be determined based on the depth and breadth of professional education and experience beyond what is minimally required. Emphasis will be placed on measuring:

**Knowledge of:**

1. Principles, practices, and techniques of public health administration and personnel management to carry out daily supervisory duties.
2. Leadership principles and methods to motivate and maintain the productivity of employees in accomplishing program objectives.
3. Quality control policies and procedures applicable microbiological testing performed.
4. Microbiological and serological principles in order to perform and oversee daily duties.
5. Techniques, equipment, and terminology used in the laboratory for the detection and identification of infectious disease agents.
6. Virological and rickettsia pathogens with clinical and public health significance for the detection and identification of human, zoonotic, and vector-borne pathogens.
7. Methods of disease transmission and epidemiological principles to select proper specimens for testing.
8. Personal protective equipment and laboratory safety devices required to prevent accidental exposure to biological materials, infectious agents, chemicals, toxins, etc.
9. Quality control and assurance principles and regulations, as well as their application to laboratory operations and record keeping in accordance with state and federal regulations.
10. The use, maintenance, and principle of operations of laboratory equipment used for analytical testing and environmental control to assure proper operation and valid laboratory results.
11. Laboratory safety regulations, principles, and procedures for the identification and control of
chemical and biological hazards.
12. Disease progression in the human host for the selection and timing of proper specimen collection and testing.
13. Patient confidentiality principles and information security practices as required by laboratory policy, State, and Federal regulation.
14. Basic chemistry, microscopy, immunological, and molecular principles in order to understand and perform standardized laboratory assays and develop new testing methods.
15. Principles, techniques, and terminology used in immunology to assure proper implementation and interpretation of serological tests.
16. The common causes of diseases and methods of transmission and control of communicable diseases.
17. Laboratory equipment and its care to ensure safety and accuracy for daily duties.
18. Principles and methods of scientific research, scientific theories, and new, innovative test methodologies.

**Skills to:**
1. Effectively lead a team in a professional manner to achieve departmental goals.
2. Safely perform laboratory operations including work with cultures, diagnostic specimens, pathogenic organisms, and laboratory equipment (i.e., biological safety cabinets, sharps and autoclaves), to ensure the safety of the laboratory environment and staff.
3. Recognize and solve problems in performance of test assays, equipment, and data that significantly impact the quality of results to assure high quality laboratory results.
4. Effectively and accurately communicate both orally and in writing, with staff, the public, and local agencies to provide information and direction.
5. Read and comprehend scientific literature, directives, manuals, reports, and other job related documents to maintain a suitable knowledge base and enable performance of complex laboratory tasks.
6. Effectively lead a group, including coaching and mentoring, to improve performance, productivity and expertise.
7. Identify project resources and deadlines in order to prioritize work assignments, establish timelines for completion, and to assure that project goals are met.
8. Provide expert advice and assistance to staff and external constituents concerning implementation or application of new and existing policies and procedures.

**Ability to:**
1. Coordinate and supervise complex microbiological projects to achieve departmental goals.
2. Effectively contribute to the Department's affirmative action objectives to meet program goals.
3. Work on multiple projects and assignments simultaneously to meet deadlines.
4. Adapt to changes and priorities of work assignments and policies which may impact courses of action for completion of projects and assignments.
5. Communicate verbally in a clear and effective manner with staff, state, and local agencies when providing consultation and technical guidance.
6. Interact and collaborate with staff of various job descriptions and backgrounds in order to foster team building and cooperation.
7. Perform virological laboratory tests in order to diagnose infections and guide treatment decisions.
8. Maintain, organize, and keep records for laboratory audit purposes.
9. Clearly communicate complex concepts to other scientists for consultation or training.
10. Independently troubleshoot and solve problems that occur in the laboratory.
11. Evaluate effectiveness of training, analyze problems, and take appropriate action according to established management policies.
12. Maintain confidentiality of sensitive issues, including patient and employee information to comply with departmental policies.
13. Represent the department in a professional manner in interaction with the public, scientific
community, and legal proceedings regarding laboratory issues.

14. Work in supervisory capacity being attentive to ideas, recognizing responsibilities, and actively communicating with staff to accomplish program goals.

15. Work independently to complete laboratory work, adjust priorities and meet deadlines to carry out job duties.

16. Operate and adapt to complex office and laboratory equipment (i.e., Computers, office machines, microscopes, centrifuges, and balances).

17. Organize, design, and provide effective training curriculum for staff to meet departmental policies.

18. Provide technical guidance to staff regarding laboratory policies and procedures.

19. Analyze situations accurately and take effective action to carry out job duties.

20. Identify microbiological agents utilizing a variety of testing methods to achieve departmental goals.

ELIGIBLE LIST INFORMATION
Possession of the entrance requirement does not assure a place on the eligible list. In order to obtain a position on the eligible list, a minimum rating of 70% must be attained. Names of successful competitors are merged into the open eligible list established for use by the Department of Public Health in order of final scores regardless of testing date. Eligibility expires 24 months after it is established unless the needs of the service and conditions of the list warrant a change in this period.

VETERAN’S PREFERENCE
Pursuant to Government Code Section 18973.1, Veteran’s Preference will be awarded in this examination as follows: 1) Any veteran, widow or widower of a veteran, or spouse of a 100 percent disabled veteran, who achieves a passing score in an entrance examination, shall be ranked in the top rank of the resulting eligibility list. Any veteran who has been dishonorably discharged or released is not eligible for veterans’ preference; 2) An entrance examination is defined, under the law, as any open competitive examination; 3) Veterans’ Preference is not granted once a person achieves permanent civil service status.

HOW TO APPLY FOR VETERANS’ PREFERENCE
The California State Jobs’ website (www.jobs.ca.gov) has information on how to apply for Veterans’ Preference on their website and on the Application for Veterans’ Preference form (CalHR 1093) (https://jobs.ca.gov/PDF/SPB1093.pdf). Additional information is also available at the Department of Veterans Affairs website (http://www.cdva.ca.gov).
