POSITION DESCRIPTION

Engineering Geologist

This is the entry, working, and journey level in the series. Incumbents move through the ranges as competency and performance increases.

Range A is the entry and first working level in the class. Incumbents work under close supervision and perform less difficult engineering geologic work.

Range B is the intermediate working level. Under general supervision, incumbents perform professional engineering geologic work of average difficulty.

Range C is the full (nonregistered) journey level. Under direction, incumbents perform difficult professional engineering geologic work. Incumbents may act as project managers on more complex projects or be assigned staff specialist responsibilities in support of project managers or other technical or programmatic functions.
